THERMOFORMING ACCESSORIES

Precise mechanical systems provide fast, accurate tool changeover.

FORM TOOL COMPONENTS & ACCESSORIES

- Cone Locator Cartridges
- Scrap Chopper Bars
- Titan Sheet Clamps
- Indexing Buttons
- Peening Hammer

RAW MATERIALS

- Syntactic Foam Plug-Assist Materials
- Rapid-Cycle Heat Sink Compound
- Silicone Cord
- Metapor Mold Material

Rapid Cycle Heat Sink Compound

Increase shots-per-minute!

Thermoforming is about heat. The primary objective is heating and cooling the plastic as fast as possible. Available in convenient 18 oz. (520 Gram) tubes that fit into a standard household caulking gun. Segen's special thermoforming compound is a silicon-based zinc oxide that dramatically increases thermal transfer rates when applied between the mold and cooling plate. That means faster cooling molds, increased shots-per-minute and increased profits!

Catalog #	Size	Price
RC145	18 oz. tube (520 Grams)	\$100

Rapid-Cycle Applicator Gun

Convenient, easy-to-use applicator gun applies and distributes mold heat sink compound with minimal effort and clean-up time.

Catalog #	Price
RCG10	\$21

Rapid-Cycle Applicator Roller

Hard rubber 6"-wide applicator roller spreads a uniform coating of heat sink compound over thermal contact area.

Catalog #	Price
RCR60	\$21
